

"CONTENTS PAGE"

The articles on the contents page are suggestive of the space provided in each case. Any item of similar size and shape is easily interchangeable. This provides a high degree of specificity yet guarantees flexibility.

All **BIOTEK** cases follow a similar layout scheme. The cases tops have elastic straps to hold a variety of small and medium sized items. Most cases have centers to hold additional supplies and medicines. The bottoms of the cases are designed to hold larger items, and have velcro straps to separate and secure these items.

All cases are sold without contents. This allows each organization to stock the cases to fit their requirements.

MINI-TEK EMT BLS trauma kit

(5)O.P. Airways	(2)N.P. Airways	Bitestick	Ring cutter
Penlight	Thermometers	Safety pins	O.B. Bulb
Instant Glucose	(4)Needles or capsules	Ipecac	Cord clamps
Band-Aids	Alcohol Preps	K-Y Jelly	Eye Patches
50 or 60cc Syringe	Eye wash	O2 Key	Sterile gloves
B. P. Cuff	Stethoscope	Scissors/Paramedic	Scissors or
Hemostat	BVM	O2 Masks	Tubing
Pocket Mask	500cc solution	Admin. set	Tape
Arm board	Triangular bandage	5 x 9's , kerlix, kling,	4 x 4's, tape
and other trauma bandaging			

MINI-TEK EMT II BLS trauma kit with customizable bottom partitions

(5)O.P. Airways	(2)N.P. Airways	Bitestick	Ring cutter
Penlight	Thermometers	Safety pins	O.B. Bulb
Instant glucose	(4)Needles or capsules	Ipecac	2-Cord clamps
Band-Aids	Alcohol Preps	K-Y Jelly	Eye patches
50 or 60cc Syringe	Eye wash	Scissors/Paramedic	O2 Key
Scissors & Hemostat			

The bottom compartment utilizes up to nine(9) individually arranged partitions to provide compartmentalization. This allows extensive individual customization and organization. All items carried in the **MINI-TEK EMT** can be carried in the **MINI-TEK EMT II**.

MINI-TEK A ALS/BLS airway kit

(5)O.P. Airways	(2)N.P. Airways	Bitestick	Xylo Jelly
"C" Laryngoscope handle		Pediatric handle or extra blade	
(6)Laryngoscope blades (7-10) E.T. Tubes		Non Visualized Airway	
(2)10cc Syringes	30cc Syringe	(2)Magill forceps	BVM Adult
Pocket mask	O2 Masks	O2 tubing	B.P. Cuff
Stethoscope			

BOTTOM CABINET: These are suggestive, many items may be interchanged. Extra E.T. tubes, pediatric and adult, batteries and bulbs, alcohol or betadine preps, K-Y jelly , tape, Vaseline pads, E.T. tube holder, tracheostomy kit, O2 tubing, syringes, instant glucose, Ipecac, etc..

MINI-TEK A-XL ALS/BLS airway kit

The MINI-TEK A-XL is a slightly larger version of the MINI-TEK A, about 1 inch larger in width, length and height, but has room to hold about 50% more in the bottom and bottom cabinet. The case also has a fold down handle for easy storage.

MINI-TEK AO2 ALS/BLS airway kit holds a MADA III oxygen cylinder

(5)O.P. Airways	(2)N.P. Airways	Bitestick	Xylo Jelly
"C" Laryngoscope handle		Pediatric handle or extra blade	

(6)Laryngoscope blades (7-10) E.T. Tubes	Non Visualized Airway.		
(2)10cc Syringes	30cc Syringe	(2)Magill forceps	BVM
Pocket mask	O2 Masks	O2 tubing	B.P. Cuff
Stethoscope			

BOTTOM : Bracketing and strapping is provided to hold a MADA III, 200 Liter aluminum oxygen cylinder and a CGA-540 threaded regulator..

BOTTOM CABINET: These are suggestive, many items may be interchanged. Batteries and bulbs, alcohol or betadine preps, K-Y jelly , tape, Vaseline pads, E.T. tube holder, tracheostomy kit, O2 tubing, syringes, instant glucose, Ipecac, etc..

MINI-TEK AO2c ALS/BLS airway kit holds a MADA "C" oxygen cylinder

(5)O.P. Airways	(2)N.P. Airways	Bitestick	Xylo Jelly
"C" Laryngoscope handle		Pediatric handle or extra blade	
(6)Laryngoscope blades (7-10) E.T. Tubes		Non Visualized Airway.	
(2)10cc Syringes	30cc Syringe	(2)Magill forceps	BVM Adult
Pocket mask	O2 Masks	O2 Tubing	B.P. Cuff
Stethoscope			

BOTTOM: Bracketing and strapping is provided to hold a MADA "C" 240 Liter aluminum oxygen cylinder and a CGA-540 threaded regulator.

MINI-TEK D ALS drug kit

(8)1to3cc Ampules (8)4to10cc Ampules (2)50cc prlds out of box
3-50cc prlds in box or 6-5to10cc prlds in box (7)5to10cc prlds out of box
(5)10to15cc vials (2)15-25cc vial 2g m prld or 5to10cc prld
(2)5-10c vials (2)Intercaths (9)Angiocaths (9)Blood tubes
Venoject holder Venoject needles Many extra needles including spinal
(3)20cc Syringes (2)10cc Syringes (2)5cc Syringes (3)3cc Syringes
(3)1cc Syringes Buretrol/Blood set (4)Administration or mini-drips
Syringe spaces are interchangeable with equal or lesser sized preload medications.
(3)500cc solution bags 1000cc solution bag (2)Anesthesia extension sets
Alcohol preps Tape
18 additional spaces are provided for the following: Needles including spinal, 1to3cc ampules, breakable capsules, small vials, thermometers, etc.. There is easy adaptation for pediatric bicarbonate and D50.

MINI-TEK D-XL ALS drug kit

The MINI-TEK D-XL is a slightly larger version of the MINI-TEK D, about 1 inch larger in width, length and height, but has room to hold about 50% more in the bottom. The case also has a fold down handle for easy storage.

MINI-TEK DB ALS drug kit that holds medications in their original container

(7)1to3cc Ampules (3)4to10cc Ampules (2)10cc Ampules
(5)50cc prlds in box or 2-50cc and 6-5to10cc prld in box (10)5to10cc prlds in box
(5)10to 20cc vials (1)20-30cc vial (2)30cc vials
(9)Angiocaths (5-10)Spaces for needles or blood tubes
Tubex prlds and syringe Venoject holder Venoject needles
(2)20cc Syringes (2)3cc Syringes (2)1-3cc Syringes
Syringe spaces are interchangeable with equal or lesser sized preload medications.
(4)Administration or mini-drips Buretrol/Blood set (3)500cc solution bags
1000cc solution bag Extension sets Tape Alcohol preps
There is easy adaptation for pediatric bicarbonate and D50.

MINI-TEK DB-XL ALS drug kit

The MINI-TEK DB-XL is a slightly larger version of the MINI-TEK D, about 1 inch larger in width, length and height, but has room to hold about 50% more in the bottom. The DB-XL center also has additional straps on the bottom side. The case also has a fold down handle for easy storage.

MINI-TEK AD ALS combined airway/drug kit

(3)5to10cc prlds (3)50cc prlds (6)1to3cc amps
 (6)4to10cc amps "C" Laryngoscope handle (5)Laryngoscope blades
 30cc Syringe (2)20cc Syringes (2)10cc Syringes (2)5cc Syringes
 (2)3cc Syringes (2)1cc Syringes
 Syringe spaces can be interchanged with equal or lesser sized preload medications
 (4-6) E.T. Tubes (4)O.P. Airway (2)N.P. Airways Magill forceps
 (9)Angiocaths Butterflies Venoject holder Venoject needles
 (6)Blood tubes (4)Administration or mini-drips (2)500cc Solutions
 1000cc Solution are interchangeable O2 Masks
 Pocket mask B.P. Cuff Stethoscope Alcohol preps
 Tape

MINI-TEK AD-XL ALS airway/drug kit

The MINI-TEK AD-XL is a slightly larger version of the MINI-TEK AD, about 1 inch larger in width, length and height, but has room to hold about 50% more in the bottom. The case also has a fold down handle for easy storage.

MINI-TEK PEDS AD ALS combined airway/drug pediatric kit

(8)5to10cc prlds (8)1to3cc amps (8)4to10cc amps
 (4)O.P.Airways (2)N.P. Airways (5-7) E.T. Tubes
 (5-7)Laryngoscope blades Pediatric handle or extra blade
 "C"Laryngoscope handle Non Visualized Airway (9)Angiocaths
 Venoject holder Venoject needles 5cc Syringe (2)20cc Syringe
 (2)10cc Syringes (4)3ccSyringes (4)1cc Syringes
 Syringe space can be interchanged with equal or lesser sized preload medications
 (6)Blood tubes Bitestick Butterflies B.P.Cuff
 (4)Administration or mini-drips Buretrol O2 Masks
 (2)500cc Solutions 1000cc Solution Pocket mask
 9-spaces are provided for any of the following: needles, 1-3cc ampules, breakable capsules, small vials, thermometer etc..

MAXI-TEK AD ALS midsize combined airway/ drug kit that holds medication in their original container

(14)5to10cc prlds (4) 50cc prlds in box or 2-50cc and 4-10cc prld in box
 (10)1to3cc amps (10)4to10cc amps (4) 20-30cc vials (2-4)bristoject
 bristoject holder O.P.Airways N.P. Airways Bitestick
 (5-7) E.T. Tubes " C" Laryngoscope handle Butterflies
 B.P.Cuff Pocket mask Pediatric handle or extra blade
 (12)Angiocaths (2)20-30cc Syringe (2)10cc syringe (2)5cc Syringe
 (2)3cc Syringes (2)1cc Syringes
 Syringe space can be interchanged with equal or lesser sized preload medications
 (3)Blood tubes Blood set Venoject holder and needles
 (3)500ccSolutions 1000solution (4)Administration or mini-drips
 Extension sets Buretrol BVM O2 Masks
 (5)spaces are provided for any of the following: needles, 1-3cc ampules, breakable capsules, small vials, thermometer etc.

MAXI-TEK EMT BLS midsize trauma kit

(7)O.P. Airways (2)N.P.Airways (2)Bitesticks (2)Penlights
 Bulb Syringe Cord clamps Instant Glucose Ring Cutter
 Ice packs or baddaging Scissors/Paramedic Scissors/hemostat O2 Key
 Reflex hammer Magill forcep Alcohol preps Eye Patches
 (5)Extra spaces to be used for needles, capsules, thermometer etc..
 Cravats 4x4's or 4x3's Triangular bandage

BOTTOM: Velcro strapping will provide space and security for many items;
 Pocket mask O2 Masks BVM adult BVM peds

B.P.Cuff Stethoscope Trauma bandaging including 4x4's,
 5x9's, kling, kerlix, trauma pads,armboard etc.. Quantities and position are individually selectable

METEK EMT BLS large trauma kit

(8)O.P. Airways (2)N.P.Airways (2)Bitesticks (2)Penlights
 Bulb Syringe Cord clamps Instant Glucose Ring Cutter
 Ice packs Scissors/Paramedic Scissors/hemostat O2 Key
 Reflex hammer Magill forcep Alcohol preps
 (8)Extra spaces to be used for needles, capsules, thermometer etc..
 Eye Patches 4x4's or 4x3's Triangular bandage Cravats

BOTTOM CABINET: Cabinetry can hold an assortment of items including tape, syringes, needles, bandaging, O2 masks or anything else deemed necessary.
 BOTTOM: Velcro strapping will provide space and security for many items;
 BVM adult BVM peds O2 Masks Pocket mask
 B.P.Cuff Stethoscope Trauma bandaging including 4x4's,
 5x9's, kling, kerlix, trauma pads,armboard etc.. Quantities and position are individually selectable.

METEK EMT O2 BLS large trauma kit that holds a MADA "C" O2 Cylinder

(8)O.P. Airways (2)N.P.Airways (2)Bitesticks (2)Penlights
 Bulb syringe Cord clamps Instant glucose Ring cutter
 Ice packs Scissors/Paramedic Scissors/hemostat O2 Key
 Reflex hammer Magill forcep Alcohol preps (8)Extra spaces
 to be used for needles, capsules, thermometer etc... Eye patches
 4x4's or 4x3's Triangular Bandage Cravats

BOTTOM CABINET: Cabinetry can hold an assortment of items including tape, syringes, needles, bandaging, O2 masks or anything else deemed necessary.
 BOTTOM: The bottom is specifically designed with bracketing and Velcro straps to securely accommodate a MADA "C" 240 liter aluminum O2 cylinder and a CGA-540 threaded regulator.. There is also sufficient space for arrangement of;
 BVM O2 Masks Pocket mask
 B.P.Cuff Stethoscope Trauma bandaging including 4x4's,
 5x9's, kling, kerlix, armboard ect..Quantities and position are individually selectable.

METEK AD ALS large combined airway/drug kit

(12)1to3cc Amps (11)4to10cc Amps (7)5to10cc prlds (3)50cc prlds
 (5)10to15cc vials (2)20to30cc vials "C" Laryngoscope handle
 (6)Laryngoscope blades 50to60cc Syringe (2)30cc
 Syringe
